WHO WE ARE KEY CONTRIBUTORS

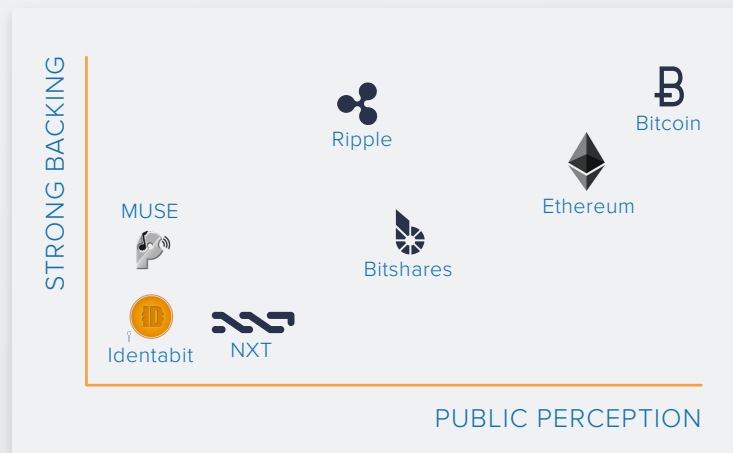

SOLVED PROBLEM

BARRIERS TO ADOPTION

COMPETITION AMONG PLATFORMS

These are just two interesting comparisons in the platform arena.

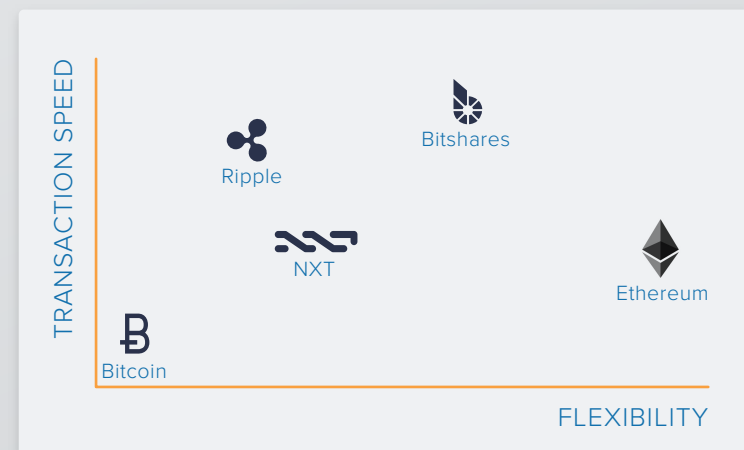

There are many other arenas in application space which we are disruptively competing:

Exchanges, Music, Gaming, Remittance, Voting, etc.

Most of this competition is for investment funding and the hearts and minds of developers.

We are all pursuing different business models and don't compete head to head in application space.

Plenty of room for all at this point.

COMPETITION AMONG PLATFORMS

Public blockchain platform development teams	CRYPTONOMEX	ETHEREUM	BITCOIN
Development support for public / private blockchains	Public and private blockchains	Public blockchain	Public blockchain
Commercial license	YES	NO	NO
Scalability (transaction throughput, settlement speed, cost efficiency)	5/5 Very high for both public and private blockchains	2/5 Limited	1/5 Very limited
Scope: Amount of applications possible (without meta protocols)	4/5 scalable turing completeness	4/5 flexible turing completeness	1/5 Very limited theoretically and practically

REVENUE MONETIZATION STRATEGY

We license software that helps entrepreneurs by cutting time, risk, and cost to get to market with our disruptive technical edge.

Public Blockchains

Launch and promote

Own a percentage of equity and revenue

Private Blockchains

Customize and support

License Graphene proportional to scale

Blockchain Applications

License to partners

Collect share of revenue streams

Joint Ventures

Startup Incubator

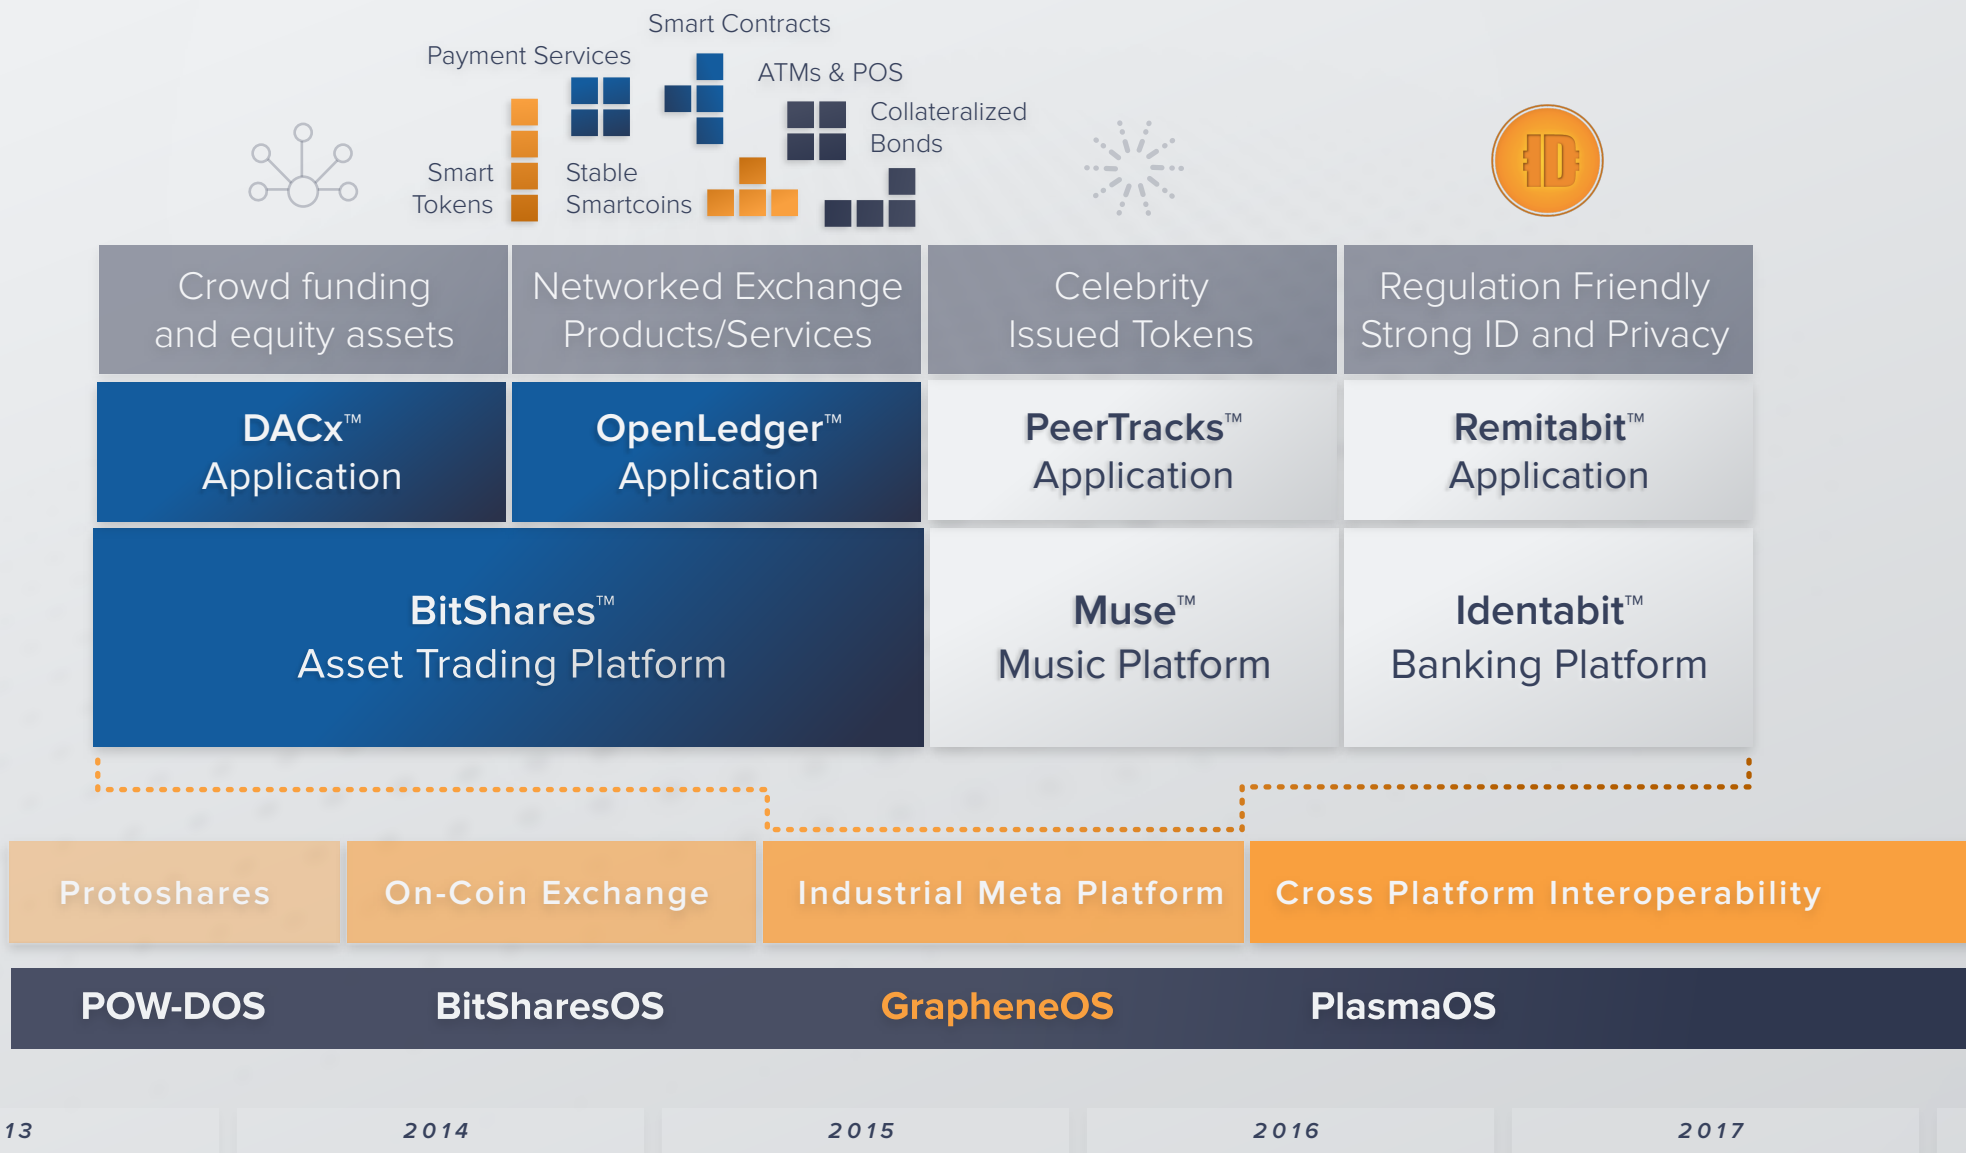

Consulting & Development

Fee for service

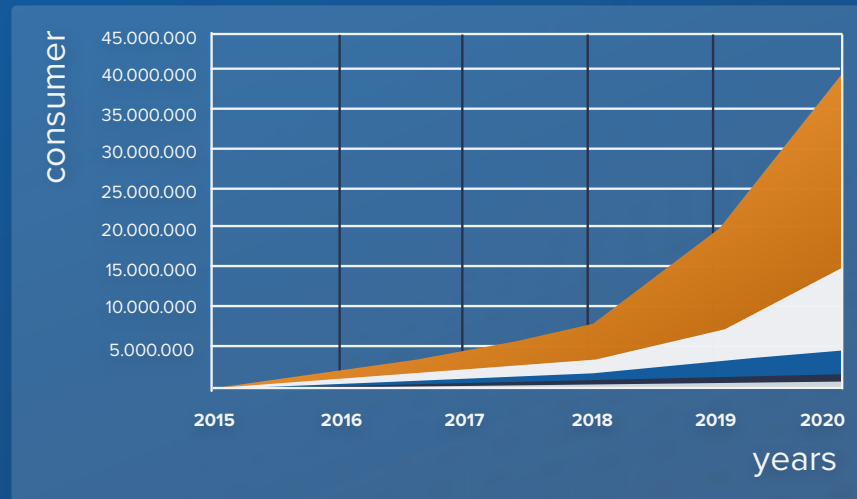

We are a software developer, manned & unmanned business incubator and asset holding company.
