WE BUILD
BLOCKCHAIN BUSINESSES

Shanghai Blockchain Summit 2015

WHO WE ARE

Dan Larimer
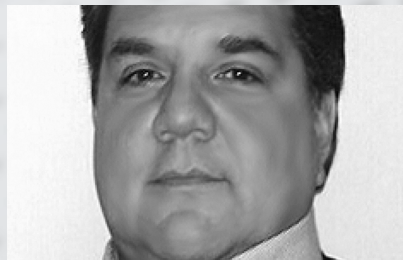

Stan Larimer

Gregory Wexler

CRYPTONOMEX

Eddie Corral
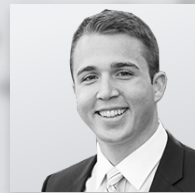

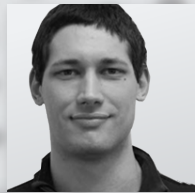

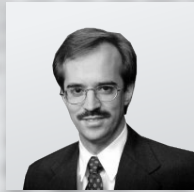

Bo Shen
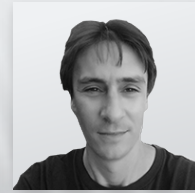

John Underwood

Ronny Boesing

KEY CONTRIBUTORS

BARRIERS TO ADOPTION

Price Stability

Counterparty free
market pegged currencies

Governance

Built-in shareholder
voting for decision makers

Economic Friction

Multi asset platform with
atomic cross-trading

Scalability

Up from 100 to 100,000
transactions per second

Sustainability

Built-in shareholder voting
for developer funding

Hackers and Thieves

On-chain trading with
multi-signature accounts

Transaction Times

Transact in real time
down from 3 to 1 seconds

Growth Mechanism

Built-in Viral
Referral Program

Regulation Compliance

Flow control with
asset-level granularity

Profitability

Cut costs, manage taxes,
deflationary revenue

Ease of Use

Auto transactions among
named accounts

Privacy vs. Transparency

Users have full spectrum control

COMPETITION
AMONG PLATFORMS

Public blockchain platform development teams	CRYPTONOMEX	ETHEREUM	BITCOIN
Development support for public / private blockchains	Public and private blockchains	Public blockchain	Public blockchain
Commercial license	YES	NO	NO
Scalability (transaction throughput, settlement speed, cost efficiency)	5/5 Very high for both public and private blockchains	2/5 Limited	1/5 Very limited
Scope: Amount of applications possible (without meta protocols)	5/5 scalable turing completeness	4/5 flexible turing completeness	1/5 Very limited theoretically and practically

MONETIZATION STRATEGY

We license software that helps entrepreneurs by cutting time, risk, and cost to get to market with our disruptive technical edge.

Public Blockchains
Launch and promote

Own a percentage of equity and revenue

Private Blockchains
Customize and support

License Graphene proportional to scale

Blockchain Applications
License to partners

Collect share of revenue streams
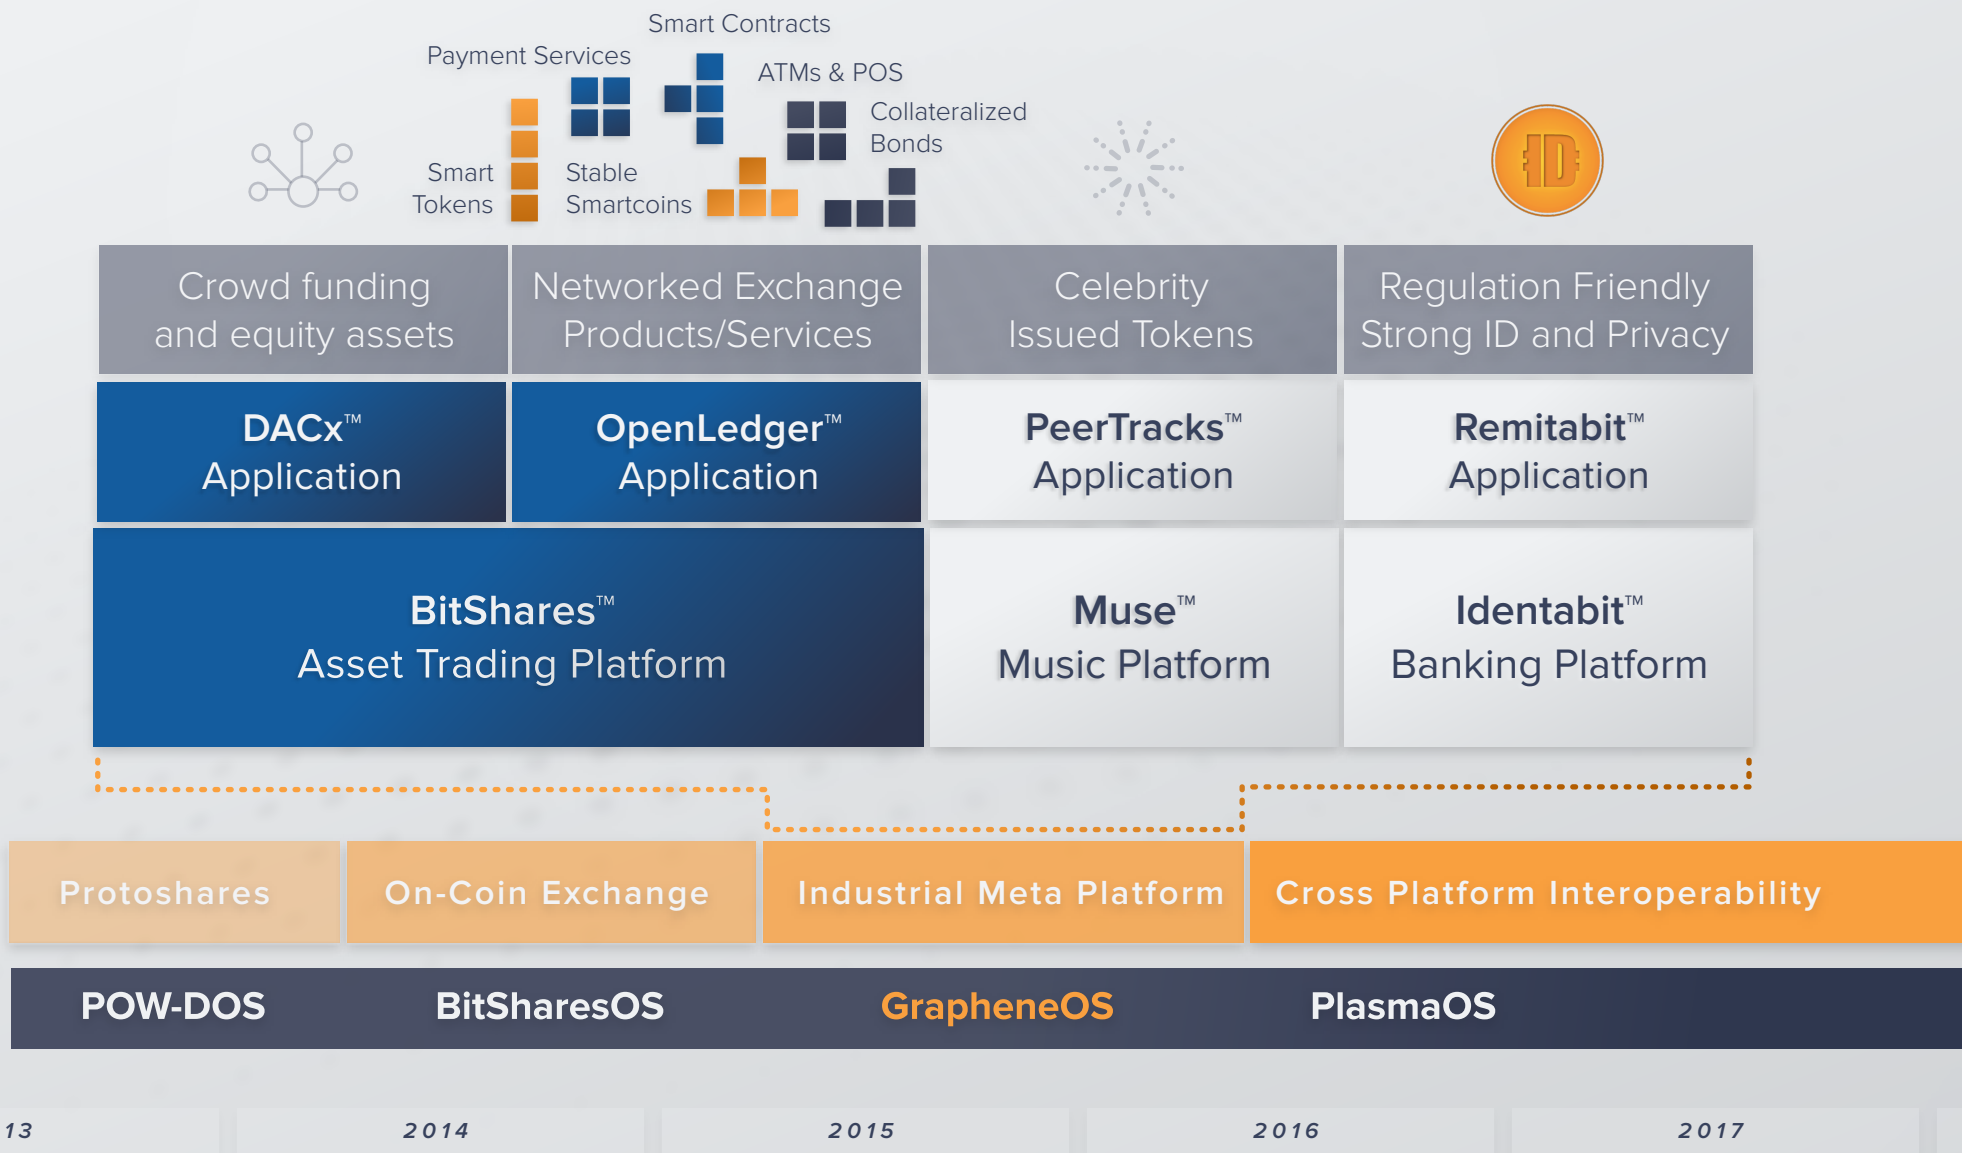

Joint Ventures
Startup Incubator

Consulting & Development
Fee for service

We are a software developer, manned & unmanned business incubator and asset holding company.

TRACK RECORD
ROADMAP

Smart Contracts

Payment Services

ATMs & POS

Collateralized Bonds

Smart Tokens

Stable Smartcoins

Crowd funding and equity assets	Networked Exchange Products/Services	Celebrity Issued Tokens	Regulation Friendly Strong ID and Privacy
DACx™ Application	OpenLedger™ Application	PeerTracks™ Application	Remitabit™ Application
BitShares™ Asset Trading Platform		Muse™ Music Platform	Identabit™ Banking Platform

Protoshares	On-Coin Exchange	Industrial Meta Platform	Cross Platform Interoperability
POW-DOS	BitSharesOS	GrapheneOS	PlasmaOS

2013	*2014*	*2015*	*2016*	*2017*

THANK YOU FOR LISTENING
